**This is your opportunity to meet and speak directly with state and federal government representatives and other professionals about mold and lead!**

**Over a 100 people attend every year! You can't miss it!**

Our previous seminars have been a great success.

The format includes many speakers in one day so that attendees are able to gain insight into the mold and lead issue and leave with numerous resources for future situations. Hear presentations from representatives from the Environmental Protection Agency, WI State Department of Health Services, private mold remediation, indoor air quality specialists, and many more!

Numerous vendors will be present in order to provide attendees with a multitude of options for addressing mold issues. Register to be a vendor to take advantage of the opportunity to gain recognition in the mold industry.
